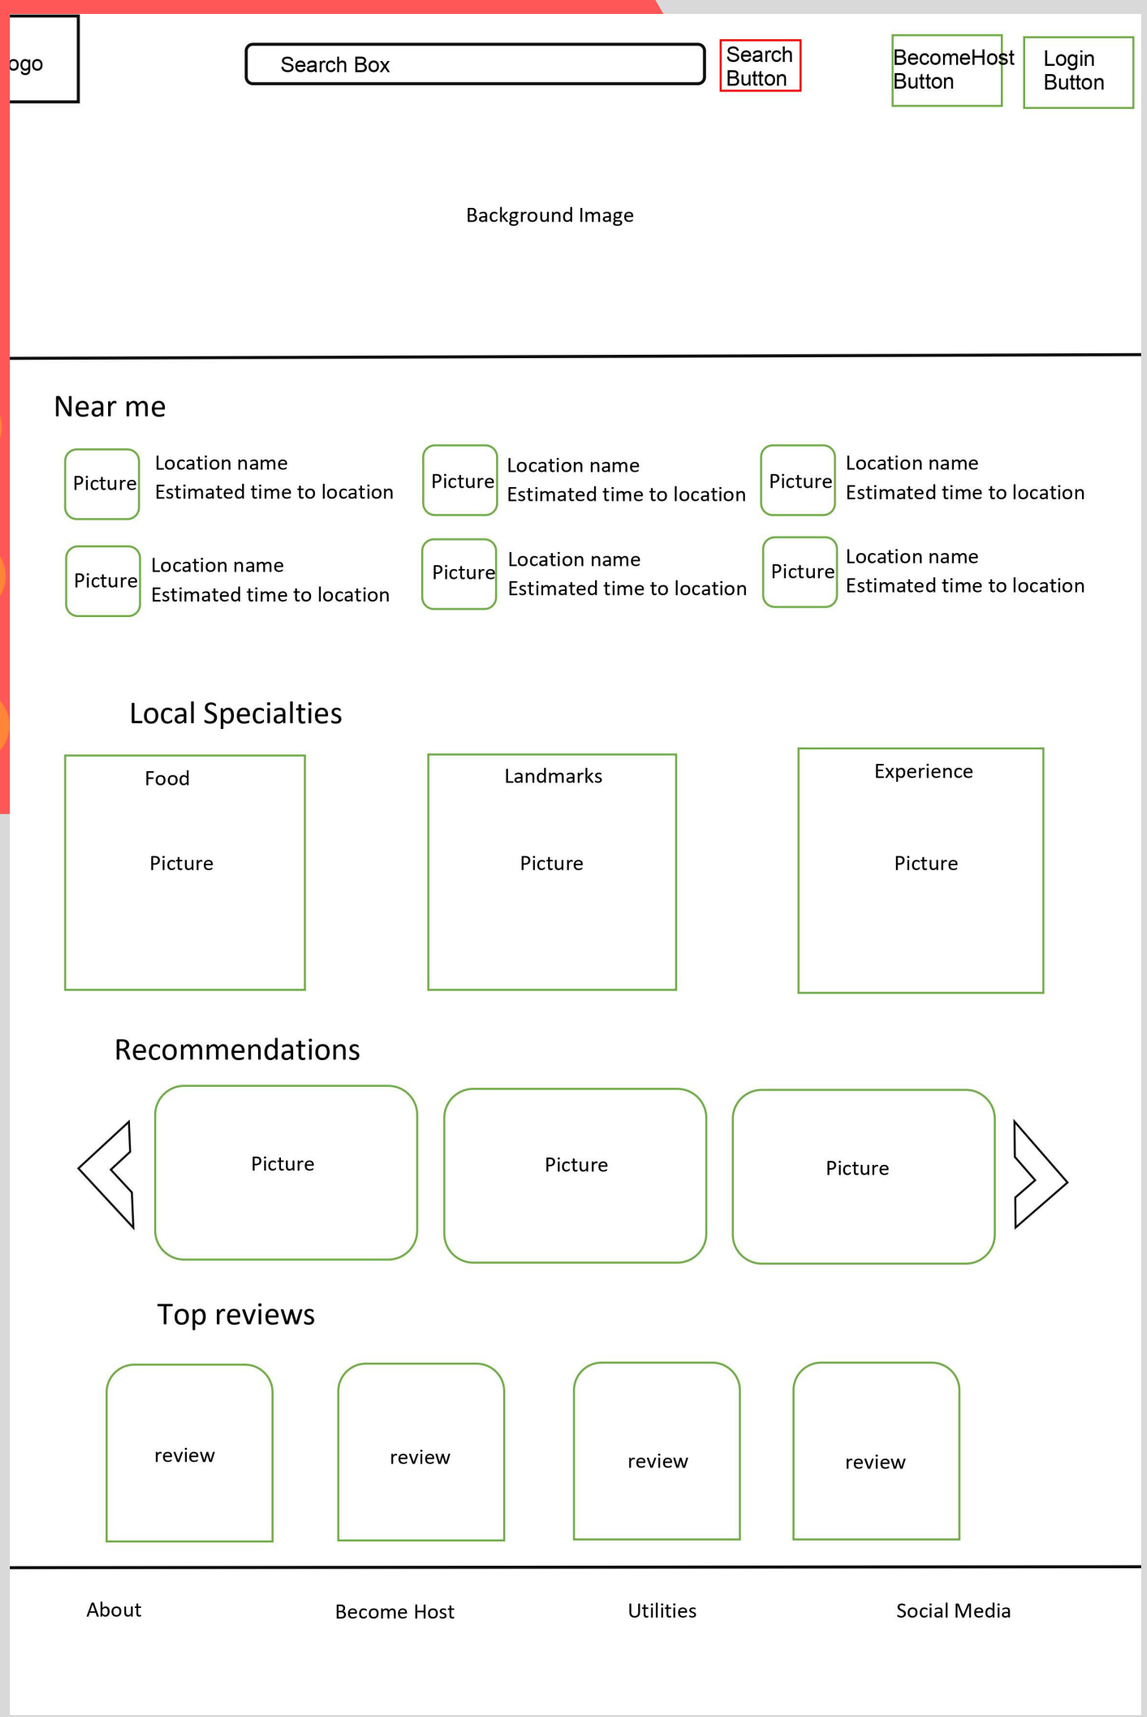
Travel App

*Name To Be Determined

Team Visibility - Ian and Carmen



What will it be?

It will be a tourism app which will focus on giving people accommodation for those who wish to explore more niche locations.

Why we chose this?

To help people avoid tour groups and let them explore and experience more local specialties.

Who is this for?

This app is for both people who like to travel and explore various places without having to spend too much money and also for local people to be able to host travels and showcase their local cultures to be more known to the world.

Our Plan

- Think of a name
- Start building the website
- Start building the app
